

Party

Iwan Rheon

Absolve me and save me
A seat at the party
Forgive all my sins
Let me home again

Take my bones
And take my skin
The blood I bleed
The air I breathe
And take me back to Africa
Take me back to where we start

Over land
The years of tears
The beauty born
In broken dreams
Take me back to Africa
Take me back to where we start

Castles in the sky
Or river is full of life?

Absolve me and save me
A seat at the party
Forgive all my sins
Let me home again

Humble back
And bended me
I kiss the earth
My lips are clean
Take me back to Africa
Take me back to where we start

Show my hand
My human shield
Deforestation
Dying bees
And take me back to Africa
Take me back to where we start

Castles in the sky
Or ocean is full of life?

Absolve me and save me
A seat at the party
Forgive all my sins
Let me home again

Take me back to Africa
Take me back to where we start
Take me back to Africa

Absolve me and save me
A seat at the party
Forgive all my sins
Let me home again

Absolve me and save me
A seat at the party
Forgive all my sins
Let me home again

But I can't, I can't get in, get in
But I can't, I can't get in
