

One More Time

Iyaz

Yeah
Look I want you
You see a city of gold
You're a star, wherever you go
Where, where you are is where I wanna be the most
Every step that we take brings us closer, closer

So come with me girl, I'm on the way
Let's go, oh
Baby together let's fly away, fly away, ooh
And every day is like a Saturday night
That's how we living our lives
How we living our lives
Put your hands up and touch the sky
Got in three, two, one girl you blow my mind
We can stay up and dance all night
And when tomorrow come we do it one more time
One more time
We do it one more time

Let me show you
How much you mean to me
Girl I want you
More than material things
Girl I love it
When you [?]
I never never let you go

So come with me girl, I'm on the way
Let's go, oh
Baby together let's fly away, fly away, ooh
And every day is like a Saturday night
That's how we living our lives
How we living our lives
Put your hands up and touch the sky
Got in three, two, one girl you blow my mind
We can stay up and dance all night
And when tomorrow come we do it one more time
One more time, one more time
And when tomorrow come we do it one more time
Ooh, one more time, one more time
And when tomorrow come we do it one more time
One more time

Put your hands up
Said put your hands up
Can't get enough it's the way that you move
I just wanna see, I I just wanna see you

Put your hands up and touch the sky
Got in three, two, one
Three, two, one
Put your hands up and touch the sky
Got in three, two, one girl you blow my mind
You can stay up and dance all night
And when tomorrow come we do it one more time
One more time, One more time

And when tomorrow come we do it one more time
One more time, One more time
And when tomorrow come we do it one more time
One more time, One more time
And when tomorrow comes we do it one more time
