

Blind

IZIA

I saw a girl on the pavement wrestling as you do
I saw the pain and the anger, what I'm supposed to do?
I saw the scene that's falling down and the people too
Suddenly I asked myself what we're gonna do
If you think you're not concerned at all
And you think it's not your fault
If you think you can't do anything and that is not your role
I'll tell you to look here round you
See all that demons all that ghosts
You'll see that's not going round and that's going to explode
So come there
See her
Get out
Right now
When it's like that I prefer to be blind

I saw a girl on the pavement wrestling as you do
I saw the pain and the anger what I'm supposed to do?
I saw that scene that's falling down and the people too
Suddenly I asked myself what you're gonna do
So come there
See her
Get out
Right now

I prefer to be blind when I see them crying
