

# Burning

IZIA

I slept for a thousand days  
And I don't know if I can wait  
But I hear something calling

I feel it in my body  
It's like a thing growing in me  
Just like electricity

And now, I know  
I've been awakened  
By the stretch fill  
To my face  
I can feel it in my head

Now I know  
I feel it wait  
Going down into my veins  
Electrified all my chest

Nobody knows that I'm burning  
That I'm burning  
Today yeah

Nobody knows that I'm burning  
That I'm burning  
Today yeah

I want to get up and dance  
That seems to burn in me again  
I've got fire in my brain  
I have never felt so fine  
And all my life I've been so blind  
And I've got so much time

And now, I know  
I've been awakened  
By the stretch fill  
To my face  
I can feel it in my head

Now I know  
I feel it wait  
Going down into my veins  
Electrified all my chest

Nobody knows that I'm burning  
That I'm burning  
Today yeah

Nobody knows that I'm burning  
That I'm burning  
Today yeah

Nobody knows that I'm burning  
That I'm burning  
Today yeah

Nobody knows that I'm burning  
That I'm burning  
Today yeah
