

I Hate You

IZIA

If I'm afraid of the dark
It's all because of you
If I'm afraid of the past
It's all because of you
And if I can't sleep at night
It's because of you too!

I hate you
More than everything!
I hate you
More than all the nightmares I've been through!
You know I hate you too!

And if I can't reach the stars
It's all because of you
And if I can't stand my life
It's because of you too
And if someone has to die
That person's gonna be you

I hate you
More than everything!
I hate you
More than all the nightmares I've been through!

I hate you
More than everything!
I hate you
More than all the nightmares I've been through!
You know, I hate you too!

I hate you
More than everything!
I hate you
More than all the nightmares I've been through!
You know, I hate you too!
You know, I hate you too!
