

On The Top Of The World

IZIA

Well I got my money
I got it everyday
I do work for the city
The city works for me
Today is a new day
I'm giving all for free
Raising from the dead
The curse is behind me

And I take my change for a different day
And the voices sing, I can hear them pray

On the top of the world, you see that I'm diving
And on the top of your head you see that I'm dancing
On the top of the hill you see that I'm changing
On the top of the world, you see it, you see it, you see it

Well I got my money
I got it everyday
I do work for the city
The city works for me
Today is a new day
I'm giving all for free
Raising from the dead
The curse is behind me

And I take my change for a different day
And the voices sing, I can hear them pray

On the top of the world, you see that I'm diving
And on the top of your head you see that I'm dancing
On the top of the hill you see that I'm changing
On the top of the world, you see it, you see it, you see it

On the top of the world, you see that I'm diving
And on the top of your head you see that I'm dancing
On the top of the hill you see that I'm changing
On the top of the world, you see it, you see it, you see it

Runing runing like horses like horses
Runing runing like horses like horses
Runing runing like horses like horses
Runing runing like horses like horses

Runing runing like horses like horses
Runing runing like horses like horses
Runing runing like horses like horses
Runing runing like horses like horses
