

All the little things that you did, you did
Love me like no other boy, you did, you did
I'll keep you in my heart although we're apart
Because of all the little things you did, you did
All the little things that you did, you did
Love me like no other boy, you did, you did
I'll keep you in my heart although we're apart
Because of all the little things you did, you did

Give me love, give me life, give me life
Give me love, give me life, give me life
Give me love, give me life, give me life
Give me love, give me life, give me life

You're the coat when I'm cold when the sun don't shine
Checking that I got home when I been out all night
Hold open every door in the dark you're my light
Yeah, I never feel alone give me love, give me life

Give me love, give me life, give me life
Give me love, give me life, give me life
Give me love, give me life, give me life
Give me love, give me life, give me life
Give me love, give me life, give me life
Give me love, give me life, give me life
Give me love, give me life, give me life
Give me love, give me life, give me life
Give me love, give me life, give me life
Give me love, give me life, give me life
Give me life...

All the little things that you did, you did
Love me like no other boy, you did, you did
I'll keep you in my heart although we're apart
Because of all the little things you did, you did
All the little things that you did, you did
Love me like no other boy, you did, you did
I'll keep you in my heart although we're apart
Because of all the little things you did, you did

Give me love, give me life, give me life
Give me love, give me life, give me life
Give me love, give me life, give me life
Give me love, give me life, give me life
Give me love, give me life, give me life
Give me love, give me life, give me life
Give me love, give me life, give me life
Give me love, give me life, give me life
Give me life
