

Never With It

Izzy Bizu

Oh, you came outta nowhere
Escaped, now the wind blowing through your crazy hair
Never been the type, red flag
Under those brown black bags, hey
You never really visit when things go bad
Always took me in when I was a nomad
Found myself a golden goose
Never did he fill your shoes, hey

Never with it when you're gone
Can't resist it, I got stronger
I always hated reminiscing
I have my limit, ah, ah
Don't admit it 'cause you're wrong
Can't resist ya for much longer
You never visit, getting sick and
I know you miss it, ah, ah

Absence said the heart grows fonder
The first sip of wine will never taste the same
Gliding down the mountain view
Candy floss clouds, cuckoo, hey
You could stay here for a while
Even if they don't approve
Nothing made me feel more attached

Never with it when you're gone
Can't resist it, I got stronger
I always hated reminiscing
I have my limit, ah, ah
Don't admit it 'cause you're wrong
Can't resist ya for much longer
You never visit, getting sick and
I know you miss it, ah, ah

Never with it when you're gone
Can't resist it, I got stronger
I always hated reminiscing
I've had my limit, ah, ah
Don't admit it 'cause you're wrong
Can't resist ya for much longer
Every shadow, he will follow
With his bow and arrow, ah, ah

You could stay here for a while
Even if they don't approve
No one made me feel more attached
