

This Is What We Wanted

Izzy Bizu

The good and the bad
I take off my mask
There's no need to think whenever I'm with you
It's the only time I love
And I got detached
We know how to react
Whenever things go away, we just snap back like elastic bands
You came in with your plastic bands
We got one-on-one dynamics
You never like those plastic smiles, oh

This is what we wanted
I can't get beyond this
We take each other hostage, ah ha
Steal some liquor, did ya figure?
This is what we wanted
Want no one else to have this
Underneath the blankets, your eyes
All day flicker
Weeping glitter, glitter

Always getting cold feet
You wanna warm them on me
I find the apple of your eye, wanna magnify
All the things that I'd rather see
Hovering like a drone
Spent so many years finding a clone
Am I just the one to stay?
Oh, I look away
Maybe only one of us is grown

This is what we wanted
I can't get beyond this
We take each other hostage, ah ha
Steal some liquor, did ya figure?
This is what we wanted
Want no one else to have this
Underneath the blankets, you still make me shiver

Just snap back like elastic bands
You came in with your plastic bands
We got one-on-one dynamics
You never like those plastic smiles
Snap back like elastic bands
You came in with your plastic bands
We got one-on-one dynamics
You never like those plastic smiles

This is what we wanted
I can't get beyond this
We take each other hostage, ah ha
Steal some liquor, did ya figure?
This is what we wanted
Want no one else to have this
Underneath the blankets, your eyes
All day flicker
Weeping glitter, glitter
