

## Cut This Off

J Boog

Ah-ha  
Aye-I  
Oh  
Well-uh-why  
Mmm  
Yeah-huh  
Oh

I think it's time to face reality  
Things are not the way they used to be  
I used to put a smile on your face  
Now all we do is fight night and day, baby  
So there you go with that [?] again  
It's hard for me to even get [?]  
We might have been good at the start  
But I know we're better off apart

I know I'll always love ya  
But I also know I'm definitely not the one for ya

You and I together  
It's not working out so let me cut this off for ya

I know I'll always love ya  
But I also know I'm definitely not the one for ya

You and I together  
It's not working out so let me cut this off for ya

This would give us both peace of mind  
To cut this off and leave the drama behind  
I'm a let ya go on ya way  
Live ya life start over today  
See that's what I'm talking 'bout  
Where ya go ya wanna argue now  
Baby can't you see we're at the end of the road  
Let's just let it go

I know I'll always love ya  
But I also know I'm definitely not the one for ya

You and I together  
It's not working out so let me cut this off for ya

I know I'll always love ya  
But I also know I'm definitely not the one for ya

You and I together  
It's not working out so let me cut this off for ya

Tell me how we ended here again  
I'm just sick and tired of playing pretend  
You got my heart goin' overdrive  
Shown me how to keep a love alive  
All the nights that I stayed at home praying  
While you was out I was never complaining  
Why I always gotta be the one

Who sits around while you have all the fun

I know I'll always love ya  
But I also know I'm definitely not the one for ya

You and I together  
It's not working out so let me cut this off for ya

I know I'll always love ya  
But I also know I'm definitely not the one for ya

You and I together  
It's not working out so let me cut this off for ya
