Sa-da-da-da
Hey

The sun is rising, I'm gonna take the day easy
And not worry, about a thing
There's too much things, yeah
In this world to drive you crazy

So I'mma live this day for me
I know that some love thier [?]
And some love their money
Some give it all up and don't even notice
After losing all they worked hard for, for free

Don't live worrying 'bout the things you can't control
Just live your life and make sure you never lose your soul
Yeah, don't live worrying 'bout the things you can't control
Just live your life and make sure you never lose your soul

I only got one life
I'mma let the stress go by
Everything 'gon be alright
So I'mma live it up

And well to everything else, I say forget it
I'mma do it my way for a minute
Something never change, they always stay the same
So let me tell ya

Don't live worrying 'bout the things you can't control
Just live your life and make sure you never lose your soul
Yeah, don't live worrying 'bout the things you can't control
Just live your life and make sure you never lose your soul

I'm feeling free today, yeah
And nothing can hold me
Oh, what a wonderful feeling

La-da-da-da
La-da-la-da-da-da-da-da
Sa-da-da-da
Hey

Don't live worrying 'bout the things you can't control
Just live your life and make sure you never lose your soul
Yeah, don't live worrying 'bout the things you can't control
Just live your life and make sure you never lose your soul
