

We On

J. Cole

Aye nigga I'm the best man
As if my best friend was getting married
Even with my eyes closed I'm something like a visionary
Paint you a perfect picture, nigga this is pictionary
Man they goin' have to put my picture in the dictionary
Right next to real then put your picture right next to fictionary
Claiming that you trill but you want bitches, all you niggas scary
Don't try to hide from it, oh boy we see you
Claim you goin' ride, oh no we don't believe you
Help wanted, classified, you need more people
Hating mind, I'm greater sign, hey we are no equal
My life is like a movie you like 3 or 4 previews
This the city where they glad to see your soul leave you
You're body laid back like neil so evil
Cole world baby 3 below zero
Getcha life snatched and your vehicle repo
I bring it to you live you gon' see it no TiVo
