

Dance All Night

J. Dash

Ay, J. Dash

Ha, Ash

'Cause my week's been way too long to crash, ay

I just want you to get down (get down)

I just want you to get down (come on, get down)

I just want you to get down (ay, get down)

Now put yo' hands up in the air and make some noise

'Cause I don't wanna waste no time just gon' dance all night

Dance all night, dance all night

Lookin' like I lost my mind just gon' dance all night

Dance all night, dance all night

You want your body next to mine just gon' dance all night

Dance all night, dance all night

The music's got me hypnotized just gon' dance all night

Dance all night, dance all night

Boy, we gon' dance the night away

Can I take you far away?

Somewhere to get lost, lost, with me

Say no words, just steal the beat

'Cause movement is the way we speak

I hope you're keepin' up, up, up with me

As we gettin' higher, can we take it slow?

Who cares where we go, as long as we're dancin' close

Want nothin' else to do, but enjoy this night with you

So why not spend it, why not spend it dancin'?

'Cause I don't wanna waste no time just gon' dance all night

Dance all night, dance all night

Lookin' like I lost my mind just gon' dance all night

Dance all night, dance all night

You want your body next to mine just gon' dance all night

Dance all night, dance all night

The music's got me hypnotized just gon' dance all night

Dance all night, dance all night

Yeah, I know this what you wanna hear tonight

'Cause we about to dance to the mornin' light

So thick can't even see the Florida night

And I can't see you 'cause you're out of sight

Ay, and I guess that you're out of mind

I'm lookin' for your love like I'm out of mine

It looks like you came at the perfect time

'Cause I'm lookin' for a change and I'm out of dime

Ha, let me know if I'm out of line

I get you feel the rush like we out of time

Ay, and when you move like that

You make me want me to pay the DJ to run this back for you

And I could tell this track for you

And it was custom made too

What it do with it? Keep you movin'

'Cause I ain't movin', I'm next to you

Ay, ay

Keep it comin', ay, just keep it comin', ay

Yes, sir, ay, a-yes, sir, ay
Just move, ay, just move with me
Don't stop, don't stop, ay, just don't stop, ay
Ay, let's dance, keep comin'

'Cause I don't wanna waste no time just gon' dance all night
Dance all night, dance all night
Lookin' like I lost my mind and I dance all night
Dance all night, dance all night
You want your body next to mine and we dance all night
Dance all night, dance all night
Girl, you know I'm on a roll and I dance all night
I need you to feel this, I need you to feel this
I need you to feel this, I need you to feel this, oh

Ay, J. Dash
Ha, Ash
If it's a smash, let me two claps, ay
Haha, just dance, ay, just dance
Just dance, ay, just dance
Just dance, ay, just dance
