

Elevator

J. Holiday

Floor 69 is your destination
Up in the clouds but that kitties raining
Taking off yo clothes lets enjoy the view
Hop on this elevator take you to the moon

Girl I got you moaning
Girl I got you screaming
Don't worry bout the walls they can keep a secret
Scratching up my back I know you feel the pressure
Got you going up to the highest level

Do you wanna ride
Do you
Do you
Do you
Ride

When the elevator go up
The panties come down
And I won't stop the motor
Until you make that sound
You know what it is when I come around
When the elevator go up
The panties come down
The panties come down down down down
The panties come down down down down
When the elevator go up

Ride it like you own it
Ride it up and down
Take you to the top or take you to the ground
Sweating out your hair and your makeup bleeding
Damn I love the sounds you make when releasing

Watch your legs shake
Watch your toes curl
Swimming in your ocean once I found your pearl
When the ride is over and you plan on leaving
Looking for your panties
Oh yea there I see them

Do you wanna ride
Do you
Do you
Do you
Ride

When my the elevator go up
The panties come down
And I won't stop the motor
Until you make that sound
You know what it is when I come around
When my elevator go up
The panties come down
The panties come down down down down
The panties come down down down down
When my elevator go up
