

Time

J. Holiday

You've been going places that I've never been
Always on my mind girl it's evident
Hold up wait awhile before we move it forward
I'm tryna keep up girl you need to know that

Babe, I'm not perfect
And I just want everything that I earn yeah
Hope I don't let us down
And everyday I put it down cause

I need to show you that this is off for you
And when I get around you baby I only adore you
Instead of running after the things that we can't chase
Counting out the minutes but can't make you stop
Tell me if you're feeling the same way
Like your the only one that I can't make it up to
Time
Time, oh time
Time
Time, oh time
Time, time, time
Time, time, time
Tik tok

Counting minutes
Counting hours
But it don't matter
Can't put you in a box
Coloring outside the line
You're superpower
We don't even have to say a word
One look from you
I get so encourage
It's so heavy baby
I can't let you get away from me

I need to show you that this is off for you
And when I get around you baby I only adore you
Instead of running after the things that we can't chase
Counting out the minutes but can't make you stop
Tell me if you're feeling the same way
Like your the only one that I can't make it up to
Time
Time, oh time
Time
Time, oh time
Time, time, time
Time, time, time
Tik tok

Round and round and round we go babe
All that matters it now babe
Round we go babe, oh yeah
Cause you don't stop
You don't stop, baby, stop
You don't stop, stop
You don't stop, baby
