My highlighting's my art of learning
Endless studying
I crash and fall to make my art
Still make it move from where I stand
Make it mine, make it right
Somebody's favorite song again
That's half my life, the reason for living, the joy of life
Motivated to carry on (Skrtrt!)

Kick snare in my ears, hear that hit that
Keep going nonstop, make my mixtape
Get feedback but still get back
Take everything like KitKat, tastes so sweet (Appreciate)
Mutual relationships, so good for me
Pump some gas and I drive to the beat
Watch out everyone, I'm reckless
Drunk in the artistic painting, keep hypin' up Dali
I want it, stadium with my fans, still
Bag all the trophies and Grammys too
Fame, money's not everything, I already know it
My work makes me breathe, so I want more
Inhale, inhale, exhale, exhale
I feel alive
