

# Clartin

J Hus

I got love for all my people  
She said I love and I need you  
Yeah love I believe you  
But I gotta love you and leave you  
Smile of an angel  
Don't let that decieve you  
Cause sometimes I'm evil  
I just, I just

Start clartin it off, clartin it off  
My friend wann' bang, my friend wann' bang  
So I start passin' it off  
Woooh  
Wait, yo, rah that's enough  
Pass it back, pass it back  
Lemme start clartin it off

Driver take a right turn  
My turn my turn  
Babyface with no sideburns  
Bruv grown man get dumped on  
Pull my top where my face is  
Come through topless and faceless  
Pull your bro like I'm famous  
With that superstar status

And then clartin it off, clartin it off (Oh My Gosh)  
My friend wann' bang, my friend wann' bang  
So I start passin' it off  
Wait yo, rah that's enough  
Pass it back, pass it back  
Lemme start clartin it off

Won't call it an early day  
On your side where the Turner stay  
Other side of your mother's ride  
What you can't drive you gotta learn today  
On a one way to an early brave  
Recline my seat back anyway  
Forgot to plan my get-away  
Put your foot on the gas like andale andale  
What? Is that what you're doing now  
Whole ting get ruined now  
I don't even know half my opps  
Why I'm permenantly screwing now  
Is he a paigon, not certain  
No time for any conversing  
Nearly clarted up the wrong person  
Had to try and test if my stuff's working

And start clartin it off, clartin it off (Oh My Gosh)  
My friend wann' bang, my friend wann' bang  
So I start passin' it off  
Wait yo, rah that's enough  
Pass it back, pass it back  
Lemme start clartin it off

And start clartin it off, clartin it off (Oh My Gosh)  
My friend wann' bang, my friend wann' bang  
So I start passin' it off  
Wait yo, rah that's enough  
Pass it back, pass it back  
Lemme start clartin it off

And start clartin it off, clartin it off (Oh My Gosh)  
My friend wann' bang, my friend wann' bang  
So I start passin' it off  
Wait yo, rah that's enough  
Pass it back, pass it back  
Lemme start clartin it off
