

## Cream

J Hus

This whole world is fake, it's as real as you make it  
I'm a star like David  
Where'd you keep the bonsam? Don't misplace it  
Let me bless it, let me grace it  
I ain't seen it in so long, I was feeling kinda jaded  
Way too long I've been naked, way too long, I just waited  
I want him bodied, wasted  
Ain't got no fear, I already faced it, embraced it  
Sleep in the graveyard and speak to the dead

Put teeth in his head  
Bare blood like when my ex was on her reds, period  
Everyday I'm serious, I'm a star like Sirius  
They know I'm an alien, I feel like erasing them  
I'm the father, I'm raising them  
We grew up from boys to men, but I'm playing with toys again  
A whole different machine, it's a washing machine  
Wash them clean, how you mean? Take his pride, self esteem  
From a juvenile teen I just wanted cream, cheese  
Make them all scream, "Please", made his whole team freeze  
We do it with ease  
Now you resemble the breeze, you're a spirit  
Make the whip turn, pivot  
I know them man, they're chicken  
We can never be the same, I know you see the difference  
I keep it close by, walking distance

This whole world is fake, it's as real as you make it  
I'm a star like David  
Where'd you keep the bonsam? Don't misplace it  
Let me bless it, let me grace it  
I ain't seen it in so long, I was feeling kinda jaded  
Way too long I've been naked, way too long, I just waited  
I want him bodied, wasted  
Ain't got no fear, I already faced it, embraced it  
Sleep in the graveyard and speak to the dead

Yo, look  
I came to war, you came to talk  
Smokey settings, I'll smoke his bredrin, just like I did it before  
I've done some horrid things, horrible things, with no remorse  
Crash that corn or swing my sword  
In hell tryna find the Lord  
They keep on running, one day gon' run out of luck  
Push my blade so deep, twist, turn, he can't breathe  
Now feds wanna ask us questions, I need repentance  
My hearts red, blue, green, like my members  
Double tap it, we so savage, all my drillers, so erratic  
If I grab him then he'll vanish  
You won't find his body, I do this for a hobby  
Just don't let my mum know, I've hugged her with gun smoke  
Amiri on my tee, but when I ride I'm in Umbro  
God knows that I've done loads  
I'm really with the shits, if you slip, then you're pissed  
I'm an opp, fuck the opps, tryna put them in a spliff  
And you ain't safe with your missus or your kids  
Bo-boosh

This whole world is fake, it's as real as you make it  
I'm a star like David  
Where'd you keep the bonsam? Don't misplace it  
Let me bless it, let me grace it  
I ain't seen it in so long, I was feeling kinda jaded  
Way too long I've been naked, way too long, I just waited  
I want him bodied, wasted  
Ain't got no fear, I already faced it, embraced it
