J Hus

Little Kojo scared  
Kojo stressing  
Kojo run off  
Left his blessings  
Left his pride  
Left his bredrin  
Kojo's lying, time for confessions  
Kojo what?  
Kojo who?  
Kojo who? I make more funds then you  
And I don't like bragging  
But, I be on the winning team  
That's why the opposition white flagging  
I made my first grand and never looked back  
5 figures made me not like niggas  
100 bags gave me sweet dreams  
Opps are watching, I'm blowing bare kisses  
Heard dem boys wanna pause on me  
Man'a cook him off the block like Shaun  
They got away with murder  
They got away with murder  
They got away with murder  
And this is J Hus reborn  
I wanna go then uhhh  
Nah, I can't say that  
Feds listening, I can't talk about payback  
But please akh'  
Don't play foolish  
Cuz you know exactly what your crew did  
Ro-Ro rolling with my new boo boo  
You ain't seen her she's a foreigner  
Big keyring looking like rule juju  
Make Zd's disappear like Obiya  
So what do you want from me?  
What do you, What do you want from me?

Delajore, Delajore, Delajore  
I want that long dough  
I want that french bread  
I heard the girls from Paris give the best head  
Delajore, Delajore, Delajore  
I want that long dough  
I want that french bread  
I heard the girls from Paris give the best head

Counting money in the drop-top  
I swear I'm having deja vu's  
My princess  
Counting paper too  
French kiss to any bitch that wanna hate on you  
And if you're working at 9 to 5  
Or you gotta hit the trap  
Just to try survive  
Baby go and get that paper  
Baby go and get that paper, paper  
You wouldn't kiss your girl  
If you knew where that shits been

Yeah he's wanna get down with the  
Get down with them OZ smashers  
She a good girl but she a lowkey badders  
I'm with the real heat clappers  
Rolling in bangers  
In them stoney swaggers  
I don't know these rappers  
And she ain't ever seen proper dough  
I be busting on the collar bone  
That's just how it's gotta go

Delajore, Delajore, Delajore  
I want that long dough  
I want that french bread  
I heard the girls from Paris give the best head  
Delajore, Delajore, Delajore  
I want that long dough  
I want that french bread  
I heard the girls from Paris give the best head
