

Good Time

J Hus

Yeahh

Imma do, what I got to do
I've been working all afternoon
At the store, get some alcohol
Hit up my weed man, for a stalk
People, plenty with they say they hustle for money
Monday to Sunday
When your problems and I'll bring my drugs
And we'll have a party, we'll have a good time (uh, uh)

Even girl affi grind and stat
How you thinkin she looking nice like that
She's my mission, she makes eye contact
Fresh kicks, still got the price on that
Everybody watch me like man, some star
Big bunda babe in Manchester
Gyaldem churpsin, man like raarrr
Ya danno, she's a gang membaa

She know the squad, she know the crew
From long time, its been over due
From across the room, I notice you
And out of all these girls, I've chosen you
She know the squad, she know the crew
From long time, its been over due
From across the room, I notice you
And out of all these girls, I've chosen you

Well let me get a private one
Thought she was soft, she's a violent one
Baby girl, you're too feisty, that's cool by me
But can you handle a dude like me
Roll up with somethin trendy
I'm so ugly, that I'm sexy
And I'm silent and deadly
But I still wanna get friendly

She know the squad, she know the crew
From long time, its been over due
