

## It's Crazy

J Hus

The devil in me, demon in me  
I had six but let go of three  
Tell my bredrin "Let go of me"  
He said "calm down there's no need"  
Me, I take everything personally  
When I hopped out it was 30 degrees  
It's crazy  
Cah we gotta bun a donny in front of Louise  
But secretly  
I shoulda bunned him immediately  
Seriously  
Find out where this eediat be  
Dem man don't wan meet with me  
It's crazy  
Gotta spread dem bells out evenly  
Furiously  
Deviously  
Where dem had altercation previously  
But why you wanna see the evil me when I wanna live my life peacefully?  
It's like  
I been feeling real evil recently  
Not recently but forever  
Ayo my bredrin pass me the leather  
You know that we love applying the pressure  
It's crazy

You don't know me you don't yourself  
Put the machine on the shelf  
Only time can tell  
When we'll  
Fill him with bells  
And his bredrin  
We drill him as well  
Bring him to hell  
I seen him drop  
That's when he fell  
I'm on your arse  
I'm on your tail  
I'm gonna send him to Jupiter  
It wasn't me it was Lucifer  
I don't care if I'm a superstar  
All dem man I'm gonna crucify  
I believe that you can fly  
When I put this bonsam in your eye  
Crept up on him on the sly  
Fuck the law I don't abide

The devil in me, demon in me  
I had six but let go of three  
Tell my bredrin "Let go of me"  
He said "calm down there's no need"  
Me, I take everything personally  
When I hopped out it was 30 degrees  
It's crazy  
Cah we gotta bun a donny in front of Louise  
But secretly

I wanna make him perish  
Vampire feeling peckish  
I ain't even poled I'm nekkid  
Hellfires where he's headed  
It's crazy  
I wanna send a message  
Let them know that I'm not playing  
I wanna beef the world  
I wanna feed him bells  
Your name don't ring a bell  
Come like stringer bell  
Nah more like Omar  
Put a tooth in his molar  
Tell him it's over  
Murder gives me a boner  
I'm so fire  
Solar  
The paigons stink  
They carry a odor  
Blammed a young g and blammed a older  
Go to their country and take it over  
The world keeps spinning like a revolver  
Black jack I'm the joker  
Man don't need no poker  
Need a boarer  
You feel my aura  
I'm in the corner  
Causing a sauna  
For all the pain and trauma  
I'm the father  
Giving order  
Man just Splash them  
Turn them water  
Do it for the culture  
Lemme do it I'm a vulture  
Bring me closer  
He's a stunter  
And a poser  
I'm a hunter  
I'm a ogre  
I'm eager  
Bare anger  
If I don't see you now then after  
Later  
Man go there with a baker  
Blazer  
Take his face off  
Why this man wan play tough  
Play hard  
It's just me and my main darg  
If you splash him get A-star  
Five star  
That time  
Got rolled on by a biker  
Had me feeling bare hyper  
Tryna find me a lighter  
Then find somebody to light up

The devil in me, demon in me  
I had six but let go of three  
Tell my bredrin "Let go of me"  
He said "calm down there's no need"  
Me, I take everything personally
