J Hus

There's no denying  
The army is rising  
Call me a Titan  
Thunder and lightning  
The circle need tightening  
The hustle, I dive in  
Strugglin', strivin'  
My business, I'm mindin'  
Don't tell me where your mind is  
I already know I'm a psychic  
Any time it's a crisis  
We're the strongest and the wisest  
Free, all my life, is  
Rise up your lighters  
Before you fully rise up  
We have to remove the virus

Ain't seeing nothing like this  
Juju J in live flesh  
You know me, I'm the livest  
Call on all your riders  
Call on all your strikers  
Me, I don't even fear death  
You don't know me, I'm fearless  
Me, I'm out here bare chest  
You can't come nowhere near us  
When man start moving careless  
Clap the man that's nearest  
I don't hit one, I hit various  
JME, I'm serious  
Juju J is my alias  
Mad man, the craziest  
In a hundred mile radius  
My best friend is anonymous  
You need to hit man  
Come and holler us  
I'm shaking all your chakras  
Gotta stop smoking cannabiz  
Everyday, different challenges  
Never had worthy challengers  
Me and you are different calibers  
Every day, wake up, manifest  
Say you shot a man but I'm not impressed  
My new girl is on house arrest  
Baby girl, I wish you all the best  
I'm on the roadside but I'm playing chess  
Niggas all the same, more or less  
You know I hit man, you a hit and miss  
Everyone I don't like, I write a list  
But a fisherman needs a bigger fish

There's no denying  
The army is rising  
Call me a Titan  
Thunder and lightning  
The circle need tightening  
The hustle, I dive in

Strugglin', strivin'  
My business, I'm mindin'  
Don't tell me where your mind is  
I already know I'm a psychic  
Any time it's a crisis  
We're the strongest and the wisest  
Free, all my life, is  
Rise up your lighters  
Before you fully rise up  
We have to remove the virus

Anywhere I go, I come with Duppy  
He don't wan' bust his shotty  
I keep them powers 'round me  
Said he wouldn't bust it but he was proudy  
I don't hear from you, you don't doubt me  
I'm just out here, you feel me?  
I been hustling, you smell me?  
If you see them man, come and tell me  
In the hood, they call me 'Momodou'  
I dump on you, you likkle fucker yute  
I know one guy from Cameroon  
Said the big Bonsam is coming soon  
That guy right there is not a goon  
Swear he was born with a silver spoon  
Coulda took that gal dere to my room  
But I took that gal dere to the moon  
You don't really know me, you just assume  
Uncle Tom, you're just a coon  
Had to spray out one buffoon  
Had to spray, it's nothing new  
Make some way, I'm coming through  
All my friend wan do is boot  
I might just give him the alley-oop  
Dem man dere don't know their roots  
Dem man dere dilute the truth  
I can't smoke my zute 'round you  
'Cause you always ask for toot  
Where's my laces, where's my shoes?  
Dem man come like passionfruit  
I don't know them random yutes  
I was chilling, sipping hooch

There's no denying  
The army is rising  
Call me a Titan  
Thunder and lightning  
The circle need tightening  
The hustle, I dive in  
Strugglin', strivin'  
My business, I'm mindin'  
Don't tell me where your mind is  
I already know I'm a psychic
