

## Problem Fixer

J Hus

Big man wan' play Chinese whisper  
You should use that energy tryna get richer  
It's one day I'll rub man out the picture  
Come there with my problem fixer  
I don't like mixing, I don't use mixer  
I can't mix with them, that's not a good mixture  
Come there with the problem fixer  
Big man wan' play

You thief my style, why you love thieving?  
I do a gun-sign, that's how I give you greeting  
On Saturday, that's when we're meeting  
I call it the strong-end, never at the weak end  
Show your true self, never need to pretend  
Watch myself, no need to pree them  
Watch out of the leeches, who love leeching  
Don't live what you preach, but you love preaching  
The sky's the limit, I never had a ceiling  
If your mind ain't free, then you ain't got freedom  
Can't show you my plans if you ain't got vision  
Told my nigga not to whack you, that's if he listens  
That's if he hears me, but he hears me barely  
But he hears me clearly, but he'd rather ignore me  
For the glory, we're moving gory  
Lucky that we're still here to tell the story

Big man wan' play Chinese whisper  
You should use that energy tryna get richer  
It's one day I'll rub man out the picture  
Come there with my problem fixer  
I don't like mixing, I don't use mixer  
I can't mix with them, that's not a good mixture  
Come there with the problem fixer  
Big man wan' play

Splash them, wash them, fix the problem  
Any rival man must crush them  
On sight ting, don't ask questions  
Smoke that donny and smoke his section  
Why does a man wan' seek attention?  
You don't bang but I know you got deep connections  
Excuse me for my evil actions  
Me, I came around evil mandem  
This one here's the evil anthem  
Afro ting, don't cut my hear like Sam Sun  
Mad man, bad man come to blam them  
Call my brother axe man for the action  
A man get clapped before you see it happen  
And if man see it man won't say it happened  
Come from a place, use to feel like Gotham  
Gotta back out the Saturn, I'm pressin' the batten

Big man wan' play Chinese whisper  
You should use that energy tryna get richer  
It's one day I'll rub man out the picture  
Come there with my problem fixer  
I don't like mixing, I don't use mixer

I can't mix with them, that's not a good mixture  
Come there with the problem fixer  
Big man wan' play  
Big man wan' play Chinese whisper  
You should use that energy tryna get richer  
It's one day I'll rub man out the picture  
Come there with my problem fixer
