

I'll Kiss the World Goodbye

J. J. Cale

I've been so lonely
In these prison walls
Good lord, thinking I would die
You've got the time to get me out
I'll kiss this world goodbye

I've taken some things
I don't really need
I've wandered out any pride
Just wave me off,
I'll leave without doubt
I'll kiss this world goodbye

The rain will fall
And I need a woman
Lord, I think I'm gonna die
I've taken some things
I don't really need
I've wandered out any pride
Just wave me off,
I'll leave without doubt
I'll kiss this world goodbye
