I'll Kiss the World Goodbye

I've been so lonely In these prison walls Good lord, thinking I would die You've got the time to get me out I'll kiss this world goodbye

I've taken some things I don't really need I've wandered out any pride Just wave me off, I'll leave without doubt I'll kiss this world goodbye

The rain will fall And I need a woman Lord, I think I'm gonna die I've taken some things I don't really need I've wandered out any pride Just wave me off, I'll leave without doubt I'll kiss this world goodbye J. J. Cale
