

You & Me

J-Kwon

I mean, I just need to talk to you right now
Yeah,,yeah, where I begin
Right, yeah, yeah

Sunny day, age 14
When I first saw you, you was lickin a Ice cream
Knew you had freak in ya blood from the get go
Yo' you showed a nigga some love from the get go
Cute too, so you ain't get caught in the image
Friends got in I should'nt of tossed out our business
So religious, yeah
In other words, sorry could'nt explain the way I was feelin'
Back to the story
Member when we used to hit concerts
Mainly legit and nories
Tryin to get on that was exciting for me
And exciting for you that was something to see
Plus you had ass and I loved that
Back in this I was ya boyfriend I rubbed that
Tryin to get on, girl I achieved that
Everybody hands out from you I recieved that

Don't need no ice or no Bentley
I just wanna have you here wit me
I'm their for you, always be true
It's just you and me, you and me
You don't have to go double platinum
I'll be their and I'm always goin' back em'
I'm their for you, always be true
It's just you and me you and me

I can't promise that
So I know just because
How you said them words it had to be love
Basically it had to be us
Against the world not giving 2 fucks
But know soon as shit picked up
I start actin different so you switched up
I don't blame you, but I blame us
Kept shit smooth even when it got rough
But, I don't see that no more
Got one half our wait hope he sore
What the fuck is hopin' for
When I can't be the man I used to be no more
No time, we don't go out to eat no more
Barley home, you don't see me before you sleep no more
You love me, and I know you ain't playin
Cuz the first week gone, you callin' me sayin'

I can't promise that
Business got good, but we got bad
Money got happy, but we got sad
But in the mist we had a daughter
Evern though we floatin' clear like ocean water
Came home 2 bags of Fendi
It was gone that started to offend me
Child support hit, that really offend me

Puffy was right it's all about the benjy's
Bitter now cuz the loves still in me
In my boxers on couch, sippin' Remy
Thinkin' that she need to be killed like Kennedy
Then I listin to I got the remedy
After all I still give you what you need, cuz we got a daughter to feed
Though you supposed to be here at least you sold me that
Why the fuck did I listen when you told me that, stupid

You know, you feal my story
Write me or something ya know what I'm sayin
Or I'll be in a town near you or, or
Your town or whatever ya know
Come see me and come tell me that ya know
It's been a long time traveling
Though you was supposed to be here
So uh, ya family can't say I'm wrong
