

Drop Me

J Mascis

Weaving through the past
I'll respond to that
I can't make it up
Thought I'd have enough

Hey now, it's me
Hey now, it's me
Try hard to be
Try hard with me

I deserved enough
But it's all you got
Build the strength within
I believed it then

Try hard you'll see
Try now with me
Nothing explained
I try the same

I been trying
Now my time is lonely

I hurt when you go
Wish I'd never know
Hey now it's me
My lips believed
Their too extreme
Now try it's me

Dream the life I'm flying
Always left still trying
To see you
Trying
Can I steal you
Been trying
Can I feel it's right
To stay

I heard where you went
Now I can't forget
Drawing in on me
Dropping where I'll be

Hey now it's me
My lips believe
They're licking me

Hey now it's me
Hey now it's me
My lips believe
Hey now it's me
