

Sometimes

J Mascis

Everybody needs a little some time, I want it some time
Everybody's free a little some time, you need it some time

Asking everybody that you see if it is gonna happen some time
Think I've over done despite my mind I thought I wondered only
some time

Crawling around
Drop me a line
I'll hit the ground
Here's what I found
Here is the dream, the sound

Everybody wants a little some time, you know that some time
There's a bit I can't explain, I turned around, I turned and di
d it some time

Sifting the ground
Hard to believe you're still around
Lost all I'd found
Still there's a part, the sound

Breaking out, breaking out
Freaking out, blanking out
Hey I wanna, hey I wanna know
Pass it on, pass it on
Laugh it off, laugh it off
Hey I wanted, hey I wanted some
Keep it setting, keep the setting sun

Everybody wants a little some time
You need it some time
