

What Do We Do Now

J Mascis

Had a dream we're at the ocean
It came out so we could see
I've been laughing, but I'm lonesome
Out of luck, ran out of steam
I could scream, but now I'm hoping
Let 'em keep one there for me

Wave a dream across the ocean
There's a spot where I can lean
Scorch the earth, leaving me broken
We're headed straight back home to me

Believe, I need to
The dream, I see you
Believe, kiss and squeeze you
It's me, what do we do now?

And the town will breathe the ocean
There's so much I wanted to be
Here's a dream that left me hoping
After, bring it back for me
Tried so hard, but now I'm broken
Giving all my memory

Believe, I need to
The dream, I see you
Believe, kiss and squeeze you
It's me, what do we do now?
