

## 73 Degrees

J Moss

Atop the trees, waiving the leaves  
Amidst the breeze, smiling so validly  
Most would say that it's mother nature (but I know that it's from you)

Stop! HE speaks I'm enthralled with Jubilee  
[?] or [?] and life more abundantly  
Most would say that infatuation  
(I know this love is true)

And oh oh these are the dreams I see  
And YOU'RE the reality, it's like 73 degrees  
And oh oh it's almost like make believe,  
As the love flows from you to me  
It's like 73 degrees

YOU know me, like no other  
YOU hold me, like a lover  
Most would say, J you sound crazy  
(but that's what I feel from you)  
Who could bring me joy within and prove to me that  
They're my best friend  
Most would say it's all a bit eccentric, but I know this love is true

And oh oh these are the dreams I see  
And YOU'RE the reality, it's like 73 degrees  
And ohoh it's almost like make believe (like a fairy tale)  
As the love flows from you to me (from you to me)  
It's like 73 degrees

When I think of what you said to me  
That YOU'D supply all my needs  
When I think of how I feel within  
73 degrees on my skin  
(for YOU'VE given the desires of my heart)  
For I delighted myself in you  
When I think of how I feel within  
It's like 73 degrees on my skin  
(you are my star, yes you are)  
Ain't no substitute for ya JESUS  
(for the things that you do so faithful and true oh)
