

What If

J Moss

Life would be unsafe, Probably be erased
Joy would be refrained, and more would be unchanged
If He said no to favor, If He said no to Grace for
my eyes would know no happiness to show

What if He said no, my life wouldn't have a chance
What if He said no, and took away His hand
What if He said no to healing and blessings and miracles
So I'm grateful He didn't say no

Peace would be a mystery, pain would go on for eternity
Hope would fade away, storms wouldn't pass they'd stay
If He said no to protection, If He said no to compassion for
my heart would know no happiness to show

What if He said no, my life wouldn't have a chance
What if He said no, and took away His hand
What if He said no to healing and blessings and miracles
So I'm grateful He didn't say no

VAMP

Many times we take for granted the little things the air we breathe, but
Say what you want it's mercy that is renewed every morning
I never would have made it through some nights or days if You didn't make a way
When You say yes when I waver, oh my Saviour I couldn't go if You said no to saving my soul

What if He said no, my life wouldn't have a chance
What if He said no, and took away His hand
What if He said no to healing and blessings and miracles
Lord I'm grateful You didn't say no
