

Atmosphere

J Rice

Keep changing things, got a problem
I've rearranged my life
Keep moving shit, all around so
It'll not remind

Me of what both of us had
I know that it's sad
But you can't seem to forgive me
And I can't seem to apologize like a man
I just keep on digging

You were my atmosphere
You were my path from fear
You were my atmosphere
You were my
You were my
You were my
You were my atmosphere (I can't breathe without you)
You were my path from fear (I can't be without you, no)
You were my atmosphere (I can't breathe without you)
You were my
You were my
You were my
You were my atmosphere

It's been 19 days, since we've said
I love you babe, so much
It's getting cold, so cold in this bed
I'm really missing us

Me of what both of us had
I know that it's sad
But you can't seem to forgive me
And I can't seem to apologize like a man
I just keep on digging

You were my atmosphere (I can't breathe without you)
You were my path from fear (I can't be without you, no)
You were my atmosphere (I can't breathe without you)
You were my
You were my
You were my
You were my atmosphere (I can't breathe without you)
You were my path from fear (I can't be without you, no)
You were my atmosphere (I can't breathe without you)
You were my
You were my
You were my
You were my atmosphere

You are my atmosphere
You are my atmosphere
You are my atmosphere
