

Block By Block

J Rice

I'll admit I'm in over my head
But this won't be the first time that I've fled
Gotta reach the top, even if I... even if I end up dead

The only thing I'm sure of anymore
I'm tired of being down here on this floor
I can't even see what I've been fighting for

So I build block by block by block by block
Won't never stop won't stop won't stop won't stop
Until I reach I reach I reach I reach
The top

The top
The top

Now you might say that I don't stand a chance.
But then I'd have to ruin all your plans
You better keep retreating cause you're cheating
And I'm no longer under your command
The only thing I'm sure of anymore
I'm tired of being down here on this floor
I can't even see what I've been fighting for

So I build block by block by block by block
Won't ever stop won't stop won't stop won't stop
Until I reach I reach I reach
The top

And now I'm flying
And my speed is multiplying
All the tricks that you've been trying
Couldn't stop me, now you're crying

The only thing I'm sure of anymore
I like it better here than on that floor
And now that I can see what I've been fighting for
Keep building block by block by block
Won't never stop
Until I reach... Until I reach
The top
