

Minecraftable

J Rice

So you can try to hate on me
You say it's just blocks, let me explain
It'll take a song to educate you, yeah
"Minecraft is dumb," you say to me
Just listen up carefully
Cause it will take a song to educate you

Yeah if you come over then you will see
You can craft things so effortlessly
We can fight guardians at sea
Try not to get mining fatigue
If you want peaceful wander around
If you want hardcore go underground
We can do anything we please you know

Maybe we will find some diorite
A trampoline made out of slime
It's minecraftable-craftable, minecraftable
And we can play Hunger Games a lot
A bad ass map with amazing mods
It's minecraftable-craftable, minecraftable

You say the graphics aren't enough
Well your imagination sucks
It's Minecraft you build what you wanna build, yeah
I hope by now you understand
It's more than blocks of dirt and sand
It's really anything that you want it to be

Yeah if you come over then you will see
You can craft things so effortlessly
We might see cows flying in trees
Or in a big giant ravine
If you want peaceful wander around
If you try hardcore go underground
We can find creepers and zombies you know

Oh maybe we will find some diorite
A trampoline made of slime
It's minecraftable-craftable, minecraftable
And we can play Hunger Games a lot
A bad ass map with amazing mods

It's minecraftable-craftable, minecraftable

And if you die you got more lives
Come on just try yeah yeah yeah
And when you mine you will loose track of time
Come on just try ah

We will find some diorite
A trampoline made out of slime
It's minecraftable-craftable, minecraftable
And we can play Hunger Games a lot
A bad ass map with amazing mods

It's minecraftable-craftable, minecraftable whoa
