

Love Drug

J Stalin

Don't let go, don't let go, don't let go, don't let go
Don't let go, don't let go, don't let go, don't let go

When you find that love and you don't let go
When you find that love and you don't let go
When you find that love and you don't let go
When you find that love and you don't let go
Let's get high on the love drug
Let's get high on the love drug
Let's get high on the love drug
Let's get high on the love drug

Don't let go, don't let go, don't let go, don't let go
Don't let go, don't let go, don't let go, don't let go

I love you then I love you, don't question my loyalty
You know where you supposed to be
Go right here, standin' next to me
Fuck you like I love you, then after, you suck my D
Took my heart and ran it over, now it's a fuckin' tragedy
I love you then I love you, don't question my loyalty
You know where you supposed to be
Go right here, standin' next to me
Fuck you like I love you, then after, you suck my D
Took my heart and ran it over, now it's a fuckin' tragedy

When you find that love and you don't let go
When you find that love and you don't let go
When you find that love and you don't let go
When you find that love and you don't let go
Let's get high on the love drug
Let's get high on the love drug
Let's get high on the love drug
Let's get high on the love drug

Don't let it go, don't let it go, don't let it go, don't let it go
Don't let it go

I love you then I love you, don't question my loyalty
You know where you supposed to be
Go right here, standin' next to me
Fuck you like I love you, then after, you suck my D
Took my heart and ran it over, now it's a fuckin' tragedy

Don't let go, don't let go, don't let go, don't let go
Don't let go, don't let go, don't let go, don't let go
