

Parachute

Ja Rule

When you play, by the rules of the world
The world, will rule you
When you play, by the rules of the divine
You, will rule the world
Bring, back, Ja

I'm falling, I'm falling, with no parachute
(2x)

All the way from heaven to the stars
The stars pass the moon
The moon turns to sky, the sky turns to you
I'm falling, I'm falling, with no parachute
I'm falling for love, with no parachute

Yeahhh! All the way
from the heaven to the stars, to the moon, to your heart
I only fail to get up for you
My world is anew, I put that on the cross
Give thanks to the Lord, (The Legend of the Fall)
Fuck you, no pause
Niggaz, may God bless us all
And then bless the dead as they bodies descend
From the ledge, to the roof, to the head, to the floor
Then watch demons hover over they corpse
It's a long fall; and a lot of niggaz fall short
Unfortunately; a lot of niggaz fall off
But not me - I could never see the ball drop
Unless its New Year's in the heart of New York
If you a (New Kid) the (Block) get a little rough
Especially if the heart ain't wide enough
Cause I've been through it all and I seen even more
Only the flyest of niggaz get to fall

I'm falling, I'm falling, with no parachute

Yeahhh; if I gave the Devil a hug, I gave the Lord a kiss
From the heavens above, to the fire, to my ashes
Nobody surpasses, Death it outlast us
It's all a legend, get Christ-like, come back, resurrection
Teflon - no use, can't kill me
I've already been dead, I'm a holy spirit
Watch my soul fly around like a G6
while my body stage dives in the audience
I'm livin this, life limitless
If it ain't fly it has no relevance
If it ain't domestic it's just not intelligent
You should be smart and don't jump off the deep end
The dark side, it's a long ride
Paint a portrait of the world and y'all dodge
Cause I've been through it all and I seen even more
Only the flyest of niggaz get to fall

I'm falling, I'm falling, with no parachute

I'm thinking of you
