

## Dance with Me

Jace Everett

No more talk of gods and devils  
Politics or dime store rebels  
Tonight, I need to get myself in tune

You waltz in with your green eyes  
All at once I'm hypnotized  
All right, I see you know just what to do

Dance with me  
Dance with me  
You're all I see  
When you dance with me

"Desafinado" y "Day by Day"  
We push and pull you spin away  
Tonight, there is nothing love won't do

If I should falter, lose the beat  
Just know my hearts got two left feet  
I'm a child, baby, and I will follow you

Dance with me  
Dance with me  
You're all I see  
When you dance with me...

There's no need to save me  
Just come rearrange my mood  
And dance with me  
Baby, dance with me  
You're all I see  
When you dance with me...
