

Kenner Avenue

Jace Everett

Rain runs down
The dirty street
Bless the broken ground
Beneath our feet
Flame, flash, lights up your eyes
Through the smoke I hear you sigh
If they could only see me now
They would never believe

We still get it on
Like we used to do
We still get it on
Like we used to do
On Kenner Avenue
On Kenner Avenue

Up all night
These dance hall days
We get fixed up
It's the only way
Sun shines straight through our hearts
Rest in love, works fall apart
I can see you're dreaming now
Never gonna let you go

We still get it on
Like we used to do
We still get it on
Like we used to do
On Kenner Avenue

The fix is in
It's right on time again
The fix is in
Feel the glow here under my skin
The fix is in
Oh, every now and then
I wonder
I wonder
I wonder where you've been
Down on Kenner Avenue...
