

Slip Away

Jace Everett

Come down with me The water's just fine All that you need Needs
leaving behind So much to see When you close your eyes

The turn of a phrase Twist of the knife Crush of the day Can't
feel it tonight I know a way To make it alright

Oh, slip away Slip away

So take a deep breathe And give it to me Whatever's left Is you
r secret to keep Open the net Let it drift out to sea

Oh, slip away Slip away oh, slip away Slip away

guitar solo

Out of the blue Into my heart Don't light my way Let me stay in
the dark

Oh, slip away Slip away Oh, slip away Slip away Slip away

Out of my hands Into your heart Just let me fade Away in the da
rk

Slip away Slip away Slip away

-fades-

Ohhhhhhh
