

# God Loves You

Jaci Velasquez

In the quiet, love is reaching  
It's yours to hold, be still and know that  
Even when you're lost and lonely  
And hope is gone, you're not alone

Far beyond the understanding  
There's a hand that leads  
If you believe

Through the darkness, see the light  
Remember God loves you

The road ahead is long and winding  
With eyes of faith, you'll find the way, yeah  
And when the journey leaves you weary  
You can rest in the comfort of Heaven's arms  
Sweet loving arms

And peace will follow  
Peace be with you always as you go  
For now you know that

Through the darkness, there's a light  
Remember God loves you

When you open up your heart  
His love will meet you where you are  
He will always be a part of everything you do  
He is here to set you free  
And give you all the strength you need  
To carry on, to carry on

Through the darkness, see the light  
Remember God loves you  
(Remember, remember)  
Remember God loves you
