

Great Is Your Faithfulness

Jaci Velasquez

Great is Your faithfulness
O God my Father
O God my Friend
Your love it never fades
And so I'll love You until the end

When shadows fall
You never change
From age to age
You never change

Great is Your faithfulness
Your faithfulness
Through the years
You've always been there
Great is Your love for us
Your love for us
Through the years
You'll always be there

So great is Your kindness, God
You are our shelter, our dwelling place
Your presence like a fire
Hope for tomorrow, strength for today

When shadows fall
You never change
From age to age
You never change

Great is Your faithfulness
Your faithfulness
Through the years
You've always been there
Great is Your love for us
Your love for us
Through the years
You'll always be there

We will stand, we will stand
Upon Your promises
We are strong, we are strong
Because our hope is in You
We will run, we will run, we will run
We belong, we belong
We belong to You
We belong to You

Great is Your faithfulness
Your faithfulness
Through the years
You've always been there
Great is Your love for us
Your love for us
Through the years
You'll always be there

Great is Your faithfulness
Your faithfulness
Through the years
You've always been there
Great is Your love for us
Your love for us
Through the years
You'll always be there
Through the years
You'll always be there
