Jack & Jack

Appetite  
They say my eyes too big but I'm hypnotized  
That ain't how I see it  
That ain't how I see it  
Appetite  
Appetite

Please  
Don't come around me  
Y'all talkin too cheap  
No need to get involved with it you can John Lennon let it be  
I been doin' my own thing yeah I'm feelin at peace  
Don't act like you know me now that I'm back on feet

Didn't know that I could move like that  
On a high I think the mood might last  
Got a taste now I can't go back  
And now I got this

Appetite  
They say my eyes too big but I'm hypnotized  
No that ain't how I see it  
I've had it all but nothing ever seems to feed my  
Appetite  
Appetite

And now I got this  
Appetite  
They say my eyes too big but I'm hypnotized  
No that ain't how I see it  
I've had it all but nothing ever seems to feed my  
Appetite

Wait  
Now it's getting high stakes  
So much on my plate  
I been eatin' so good lookin' like a war on buffet  
Like Warren Buffett  
I can't help but turnin' shit gold when I touch it  
Workin' until I need no introduction  
My eyes are too big for my stomach, fuck it  
Imma get it all, everything that I ever dreamed of  
If we talkin' the crop I'm the cream of it  
To be something you gotta be yourself  
Don't need yo help, the boy too COL-D  
Fuck silver bronze go for GOL-D  
Got the tunnel vision like I'm Thomas Shelby  
Locked in and soon I'll be hittin' my peak  
This ain't for the weak and there ain't nothin' you can tell me

Didn't know that I could move like that  
On a high I think the mood might last  
Got a taste now I can't go back  
And now I got this

Appetite
