

## Bucket List

Jack & Jack

Don't need a visa, when you're flyin' private, noooo  
Boats, planes, trains, yeah, man you know  
I'm on it, you know I'm on it  
New 458 dripping wet paint  
Ride down the interstate  
Money like trevi fountain  
Foreign money stay countin'  
Livin' life like a bucket list  
Livin' like I never miss  
House white with a picket fence  
Feelin' like the prince of egypt  
Showin' love at the kodak theater  
All the truest ones gonna be there  
Captain of the ship in the bay,  
Loatin' in the dead sea that's how we play

I live the dream you'll never see  
One kill the game quite like me  
I'll be livin' it up, fillin' my cup, yeah  
And I just got paid gonna go off  
Way I been livin' just ain't enough  
Imma start doin' me, yeah

This world is so beautiful  
Want to go see it all  
Come travel around with me, me  
Through the days and the nights  
We work to make it right  
Now come get lost with me, me

Ever since I was a kid  
When I grew up I knew I wanted a roly on my wrist  
And a brand new whip, that I could show off to my friends  
But that's just how it is, when you're livin' life like a bucket list  
Overseas or domestic, it doesn't really matter  
Cuz wherever we go you know we impressin'  
And imma teach the world a lesson  
On what it means to be the person  
That goes beyond what's expected  
Achievin' new goals every week  
That's just how it goes we don't sleep  
We work around the clock all day  
Because we seek a future, where we can do just what we please  
And I need this, I want this, so imma make sure that I get it  
And when I'm dead and gone, I hope they singin' our songs  
And I'll be lookin' down like no way we did it,  
Like no way we did it, like no one has done it  
Changin' the world maybe bein' iconic  
What we've always wanted, but we ain't even gotten started, yeah  
So I mm a take it right back to my childhood  
I never knew I'd catch flame like I'm firewood  
But now I'm cracklin' and sizzlin' and even though it's  
December and imma kill it cold blood like a tiger would  
So let's get it now

I live the dream you'll never see  
One kill the game quite like me

I'll be livin' it up, fillin' my cup, yeah  
And I just got paid gonna go off  
Way I been livin' just ain't enough  
Imma start doin' me, yeah

This world is so beautiful  
Want to go see it all  
Come travel around with me, me  
Through the days and the nights  
We work to make it right  
Now come get lost with me, me

So take all that passion  
Turn it into action  
Don't want no stress on tension  
You're gonna be a legend  
Will you open up your eyes, yeah

I live the dream you'll never see  
One kill the game quite like me  
I'll be livin' it up, fillin' my cup, yeah  
And I just got paid gonna go off  
Way I been livin' just ain't enough  
Imma start doin' me, yeah

This world is so beautiful  
Want to go see it all  
Come travel around with me, me  
Through the days and the nights  
We work to make it right  
Now come get lost with me, me
