

# Ecstasy

Jack & Jack

I feel like tonight might get the best of me  
Why do I feel so alive  
Whenever you're next to me?  
(I-I-I)

Feel you creepin', my song is on the radio  
Rollin' but I don't even mind (I-I-I)  
I could tell you this conversation is incredible  
But honestly I don't wanna lie (I-I-I)

Baby I feel something real  
Don't try to fight it  
Hands around your body  
Never letting go

I feel like tonight might get the best of me  
Why do I feel so alive  
Whenever you're next to me?

Ay, I feel alive whenever you're by my side  
Look like an angel but there's a devil in your eyes, good God  
Even if I tried I couldn't tell you to stop it  
I just took a little something that you said I should pop  
I'm gone rolling with the wind singing songs we learned when we were  
kids in the backseat  
Playing pickup, Imma take the point, I'm an athlete  
Running from the net you can't catch me, no, professional  
I turn the local house party into a festival  
The way you dancing on me baby, exceptional  
Don't want the story to end  
Is it real or are we playing pretend?

Baby I feel something real  
Don't try to fight it  
Hands around your body  
Never letting go

'Cause I feel like tonight might get the best of me  
Why do I feel so alive  
Whenever you're next to me?

I feel so alive  
Feel so alive  
Whenever you're next to me  
Feel so alive  
Feel so alive  
Whenever you are next to me
