

Like That

Jack & Jack

I ain't never met a girl, like you
And you'll never find a man, like me
Walking out the door, with you on my arm
You can hit me on my phone anytime you want

Got me going mad, when you dress like that
Girl, it's a trap when you act like that (Yeah)
I ain't even mad when you dress like that (Skate)
I know you know you bad when you act like that
Oh yeah

Met a bad bitty from the state of Mississippi
Really pretty and I wanna take her home to see the city (in my city)
Doing your thing, got me insane
Walk in the mall and you cop me a chain
I was like damn,
You hot as a flame.
Your mom is the only one that you can blame
You so cute, girl, yeah you is a blessing
And I'm the reason that your boyfriend keep flexing
Never stop texting every time I see your name up in my phone
I'm just picturing your body in that dress and makeup on
You don't even need the makeup
Save that shit for later
You the baddest thing I seen I'm thanking your creator
Girl, I see you working like Miley Cyrus be twerking
I'm certain you'll be screaming for me when I close the curtains
But it's funny, 'cause I'm the one screaming now for you, baby
I been messing around with too many girls, I need a lady
Hoping you can be the one but you need to show it
And if you prove it to me, all this money, girl, we'll blow it

I ain't never met a girl, like you
And you'll never find a man, like me
Walking out the door, with you on my arm
You can hit me on my phone anytime you want

Got me going mad, when you dress like that
Girl, it's a trap when you act like that
I ain't even mad when you dress like that
I know you know you bad (OK) when you act like that (hah) (get it)

Walked up in the spot, we do this a lot
Living at the top, attention you caught mine
Let's pop a bottle, good God
Look at what we got
Double take like a stop sign
I thought I would be done with all of this stuff
But shit, I guess not (I thought I'd be done)
I'm tryin' to get at you
Trust me I'm not your average individual
Yeah, I can slow it down
But I ain't talking about verses
I know what you're worth
And my head I've already bought you a purse and much more
And I got everything you need just like the drugstore
Oh, and before you ask

Keeping haters off of my nuts, yeah that's what the cup's for
A bunch more
Chances are comin' your way, but I know that you'll take me
(It's crazy)
How people get lust and love mixed up
I'm beginning to daydream
Of what we could be and the things we could do if you give me your time
But tonight, all that's on my mind
Is gettin' to know you and making you mine
You're a dime, girl
A straight ten
Like holy moly, me oh my
I don't even know where to begin
And let's pretend that in this moment in time we're more than friends,
And I recommend that you and I get familiar

I ain't never met a girl, like you
And you'll never find a man, like me
Walking out the door, with you on my arm
You can hit me on my phone anytime you want

Got me going mad, when you dress like that
Girl, it's a trap when you act like that
I ain't even mad when you dress like that
I know you know you bad when you act like that
Oh yeah
