Stuttering

Jack & Jack

That's my luck
I was thinking I would call it a night
But then you called my bluff
The way you dancin I ain't felt this in life
Since I was on them drugs
Yeah the music had me catching the vibe
Until you walked on up
I think I fell in love

1, 2, 3, 4
You got me s-s-s-s-stuttering
I don't know what to say
Everytime I get around you baby
I feel my s-s-stomach fluttering
My system getting overloaded
Everytime you look me in my eyes
When I'm alone I'm a poet
My words fall through in the moment
You got me s-s-s-s-stuttering
I don't know what to say
Everytime I get around you baby

Yeah uh, step out on the town
So many people are gathered around
I'm young and I'm dumb and I live for the nails
Guaranteed it's going down
I, I walk up in the function not lookin for love but just lookin for fun
Shot, shot, shot and I'm gone
My homies around me they chantin me on like
Johnson Johnson
That's when I almost lost it
I locked eyes with a girl from across the room
Then I spit out my drink like a faucet
Yo guys check it out, watch this
And with the confidence of Ryan Gosling
Walk up to her face without any hesitation
And say: wa-wanna chill?... or... dance? or... something?
Ahhh

Can't wrap my head around it
Can't find the words to say
Don't wanna live without it
How'd you make me feel this way

Can't wrap my head around it
I can't find the words to say
I don't wanna live without it
How'd you make me feel this way

You got me s-s-s-s-stuttering
I don't know what to say
Everytime I get around you baby
I feel my s-s-stomach fluttering
My system getting overloaded
Everytime you look me in my eyes
When I'm alone I'm a poet
My words fall through in the moment

You got me s-s-s-s-stuttering
I don't know what to say
Everytime I get around you baby

You got me s-s-s-s-stuttering
I don't know what to say
Everytime I get around you baby
