

Wait

Jack & Jack

Driving thru this place it left me with a broken heart
Been tryna pick up the pieces lately don't know where to start
I miss my mom I miss my dad and both my labradors
I never knew what life would have in store for me like

Hold up wait
Happened so fast
Sometimes I just wanna go back
Like hold up wait
How'd we lose track
The good times didn't know what we had
Like ooh
Shoulda won a medal
How'd we get away with all that shit we did together
Like ooh, wait
Happened so fast
Sometimes I just wanna go back

Skip another stone ain't nobody ever told me I would jump into the lake for
the last time
I been on the road reminiscing on days smoking overpriced eighths in the bac
kyard
On all those summer nights
Feels like another life
With all the people that I never got to say goodbye
I guess we had it all
We could have never known
Now time is t-t-t-t-ticking outta my control - I'm like

Hold up wait
Happened so fast
Sometimes I just wanna go back
Like hold up wait
How'd we lose track
The good times didn't know what we had
Like ooh
Shoulda won a medal
How'd we get away with all that shit we did together
Like ooh, wait
Happened so fast
Sometimes I just wanna go back

I wanna go wanna go
I wanna go back
I wanna go wanna go
I wanna go back

Hold up wait
Happened so fast
Sometimes I just wanna go back
Like hold up wait
How'd we lose track
The good times didn't know what we had
Like ooh
Shoulda won a medal
How'd we get away with all that shit we did together
Like ooh, wait

Happened so fast
Sometimes I just wanna go back
