

# The Night

Jack Frost

We could be better on the other side  
It could be better if we say goodbye  
It could be better on the other side  
So why don't we leave right now  
Hand in hand into the darkest place  
Where all the light is born

It could be better if we leave the world  
Make a journey into the dark  
Where dreams die and are reborn  
Maybe this is our night

Suddenly I think this is the night  
Suddenly I think this is our night  
Trust in me, this is the night  
Trust in me, this is our night
