

# Circles

Jack Garratt

There's no way out  
I've been running in circles again  
There's no way out  
No way out

I've been trying to forget someone I can't ignore  
He lies heavy in my bed and wakes me up when he's bored  
He's the wrong to my right  
He's the dark to my light  
He lies heavy in my bed  
And he's too strong to fight

I don't recognize myself  
I don't know these hallways anymore  
He's been sitting by himself  
On the cold concrete floor  
He wants me all to his own  
I thought he'd leave when I'd grown  
But he's been sitting by himself  
And he screams at me when I'm alone

There's no way out  
I've been running in circles again  
There's no way out  
27 without any friends  
There's no way out  
I've been running in circles again  
There's no way out  
No way out  
I've been trying to speak out  
Hoping that I might be seen  
He's been covering my lips  
So there's no sound when I scream  
He tells me I don't need help  
I don't deserve love, or wealth  
He's been covering my lips  
Says that it's best for my health

There's no way out  
I've been running in circles again  
There's no way out  
27 without any friends  
There's no way out  
I've been running in circles again  
There's no way out  
No way out

Is this what I've come to?  
Peaked in my childhood  
I can't seem to grow  
Can't find my way home

There's no way out  
I've been running in circles again  
There's no way out  
27 without any friends  
There's no way out

I've been running in circles again  
There's no way out  
No way out
