

## I Got 3

Jack Gray

Listening to old cassettes  
And dumb opinions on the internet  
I'm still smoking cigarettes  
I know I shouldn't but I'm just into it

Can we spend one night breaking all the rules?  
Nothing I'd rather do than to sneak away with you  
Talking's getting harder in this room  
Maybe we could ditch, split up, and rendezvous

Where do we go now? 'Cause we got this whole town  
I got three words that might be hard to hold down  
I got three words, I got three words, I got three  
I got three words, I got three words, I got three

Used up all my intellect  
On overthinking what I second-guessed (second-guessed)  
Parallel, can we connect?  
'Cause this is simple, simple as it gets

Can we spend one night breaking all the rules?  
Nothing I'd rather do than to sneak away with you  
Talking's getting harder in this room  
Maybe we could ditch, split up, and rendezvous

Where do we go now? 'Cause we got this whole town  
I got three words that might be hard to hold down  
I got three words, I got three words, I got three  
I got three words, I got three words, I got three

Where do we go now? 'Cause we got this whole town  
I got three words that might be hard to hold down  
I got three words, I got three words, I got three  
I got three words, I got three words, I got three

Holding it back just to buy me some time  
Makes sense in my brain but I won't say it right  
We're sat on this train going nowhere  
the lights in my eyes, then you ask

Where do we go now? 'Cause we got this whole town  
I got three words that might be hard to hold down  
I got three words, I got three words, I got three  
I got three words, I got three words, I got three

Where do we go now? 'Cause we got this whole town  
I got three words that might be hard to hold down  
I got three words, I got three words, I got three  
I got three words, I got three words, I got three
